Introductions

Alice Lieberman asked the group to introduce themselves.

Subgroup Charge

The group discussed the proposed subgroup group charge. The discussion focused on better understanding the charge by asking for clarification by the chair and staff member. The discussion also included a brief overview of the charges to the other subgroups. No changes to the subgroup charge were suggested.

Existing Definitions

Prior to the meeting, the members of the subgroup were asked, via email, to find examples of engaged scholarship definitions and practice at other institutions. The findings were collected, organized, and shared on the ESPI Blackboard site. Some of the examples were projected for the group to discuss.

Process moving forward

A few volunteers from the subgroup will propose a working definition based on the group's discussions. The working definition will be circulated to the subgroup for feedback and editing. Once the subgroup approves the definition, it will be distributed to the rest of the working group for further input.
