

A Message from the Advisory Group

Diversity, Equity, and Inclusion Workgroup Statement

February 1, 2017

The administration of the University of Kansas responded in a timely and meaningful way with statements asserting the values of our community in response to current political actions.

The Diversity, Equity, and Inclusion Workgroup appreciates and echoes the recent statements from [Chancellor Gray-Little](#) and [Provost Bendapudi](#) regarding President's Executive Order on immigration.

These statements from our University leaders not only reaffirm the core values of our institution, but also reinforce our commitment to diversity, equity, and inclusion within our community.
